Join the South Jersey Area Local in boycotting the Postal Pulse Survey!!!

It's that time again for the USPS to ask for you to help them hurt you by the means of the Postal Pulse Survey formally known as the "Voice of the Employee Survey." You remember the one PMG Runyon used against us in contract negotiations.

Not to mention that there have been Climate Surveys performed in the South Jersey District for Offices, including the P&DC, that are under the jurisdiction of the South Jersey Area Local and when those surveys have come back grossly negative in regards to management's treatment of employees at those targeted offices what has management done with those surveys? NOTHING!!!

All members in good standing that turn in their unopened Postal Pulse Surveys to the Union will be entered into a drawing at the June 9th General Membership Meeting for a chance to win one of two \$50 (Fifty-Dollar) prizes.

You can turn your unopened surveys into your steward, the Union Office or bring them in person to the June 9th GMM. You do not have to be present at the GMM to win.

In Solidarity,

Your Executive Board
