

GA Everyone :

Please read and immediately send out e-mail blasts to our members and friends, and spread on the workroom floor this message concerning what management is attempting to do in the next 24 to 48 hours. The Lehigh Valley Processing Center had an employee test positive for the coronavirus, the workers assigned to the facility are refusing to come to work because of the employee testing positive. Management is now calling all Postal employees in a 50 mile radius, asking them to volunteer to work in the Lehigh Valley Processing Center, to perform several duties such as cleaning the facility, processing the mail, and various other functions to keep the facility productive. Please make our members aware of what the Postal Service is attempting to do.

Thank you,
Nick Casselli,
President,
Philadelphia PA Area Local 89
